

A Leader in Electric Motor Testing

Tip Of The Week

June 8, 2015

Blow Your Own Horn

Does management know how valuable you are? We all know how hard it is to bring praise or recognition to your department or even yourself, but when it comes to making the case for reliability you need to do just that. A great example of “Blowing your Own Horn” is developing case studies that can display the full impact you or your department are having on savings to the bottom line. We are pleased to share with you how one company was able to find and repair a problem without impacting production and more importantly negatively affecting the balance sheet. Click here to watch Water Needs Oxygen Too (<http://www.pdma.com/webinars/Water/Water.mp4>).

You are invited to submit an Electric Motor Testing Tip of your own and receive a free PdMA® mug or hat if we publish it! Contact Lou at 813-621-6463 ext. 126 or lou@pdma.com.
