

## **Richard Love Associates**

**Richard Love** is the founder and president of Richard Love Associates, RLA. Richard Love Associates provides a comprehensive line of consulting and training services regarding industrial electromechanical apparatus repair and maintenance. They also provide a full compliment of motor management services including, but not limited to, writing motor repair specifications, conducting motor shop assessments, and providing a broad array of alternating and direct current hands-on motor maintenance training.

Richard has been associated with the electric motor industry for more than thirty-two years. He has extensive motor repair experience with rewinding, repairing, and testing alternating and direct current motors up to 10,000 horsepower. Richard works closely with industrial end-users throughout the United States helping them solve critical motor problems.
