

A Leader in Electric Motor Testing

Tip Of The Week

January 27, 2020

Portable Is Relative

The MCEMAX is designed to be a portable test equipment, but there are times when portable is not enough and we need to stow the test equipment for transportation. Examples like stairs or ladders come to mind as situations where freeing up our hands would be helpful. One of our customers has found a solution to this exact problem through a backpack that appears as if it were designed with the MCEMAX in mind:

Timbuk2 528-4-2000 Wingman Travel Duffel Bag, Black

https://www.amazon.com/dp/B00E1O34J0/ref=cm_sw_r_cp_api_i_sAHmEb39BD3ZF

If you find yourself hiking long distances during route testing, climbing stairs or ladders to reach starters or switchgears, and would like to free up your hands, check out the Wingman Timbuk2 backpack.

You are invited to submit an Electric Motor Testing Tip of your own and receive a free PdMA® mug or hat if we publish it! Contact Lou at 813-621-6463 ext. 166 or lou@pdma.com.
