

# Tip Of The Week

---

**March 2, 2009**

## A Picture is Worth a Thousand Words

Taking digital pictures of where and how to hook up your MCEMAX test leads can be a valuable tool in the learning process for new personnel. Also, did you know that if you are using MCEGold software you can attach digital picture files directly to the motor you are testing? Simply open up the Message Center, highlight your motor, and click the Compose icon. Once you are in the Compose Asset Message screen you will be able to add as many digital files as you want using the Attach icon. Paper trails are no longer required. Thanks MCEGold.

You are invited to submit an Electric Motor Testing Tip of your own and receive a free PdMA mug or hat if we publish it! Contact Lou at 813-621-6463 ext. 126 or [lou@pdma.com](mailto:lou@pdma.com).
