

A Leader in Electric Motor Testing

# Tip Of The Week

---

---

March 26, 2020

## PdMA is Here

Throughout the COVID-19 outbreak the health of our employees and customers continues to be of the utmost importance to us as we adhere to all state and federal guidelines. Our manufacturing levels remain at full capacity, and our technical support team will continue to be available during and after this crisis. For those working from home or finding more time on the computer, this might be an opportunity to reach out for help with MCEGold® software navigation, test equipment operation, or for guidance with data analysis. If you're looking to increase your case study awareness, take a moment to visit our website [www.pdma.com](http://www.pdma.com) or the PdMA YouTube channel <https://www.youtube.com/channel/UC-cUONWaudkKReNwC0PPXMq> for a large variety of case studies from rotor anomalies to high resistance connections.

We hope you and your family stay healthy. If you need anything, please don't hesitate to contact PdMA or your local representative (<https://www.pdma.com/PdMA-representatives.php>)
