Webinar – Case Studies in Motor Testing

Date: September 16, 2020

Time: 2:00 – 3:00 EDT

Join Noah Bethel from PdMA Corporation in this FREE webinar as he discusses in depth various case studies involving Rotor, Servo, and Variable Frequency Drive motors. The case studies include:

- Rotor Case Study showing correlation between MCSA, Start-up Current, and Current Demodulation.
- Robotic Servo Motor Case Study showing correlation between Voltage and Current during Servo operation and comparison to like applications.
- Variable Frequency Drive Case Studies showing energized and de-energized testing to isolate the root cause.

You won't want to miss Noah's expertise in discussing the motors, their characteristics, problems, and the testing used.
